

Android24 Discord Bot User Manual

Introduction

Welcome to the Android24 Discord Bot! This is an interactive role-playing game bot that allows you to create a character, level up, transform, battle, and explore various game mechanics within your Discord server.

Getting Started

Joining the Game

To begin your adventure, you must first start the game by using the `/start_game` slash command. When you do this, you'll be prompted to choose a race for your character. This is your first step in creating your unique character in the game world.

Core Game Mechanics

Experience Points (XP)

- You can earn XP through various activities:
 - Sending messages in supported servers
 - Spending time in voice channels
 - Completing battles
- As you accumulate XP, you'll level up, which increases your character's overall power and abilities

Zeni (In-Game Currency)

- Zeni is the game's currency
- You earn Zeni through your activities and game interactions
- You can use Zeni to purchase items in the shop

Commands

Game Commands

1. `/start_game`

- Purpose: Initiate your character creation
- Usage: `/start_game race:[Your chosen race]`
- Example: `/start_game race:Saiyan`

2. `/stats`

- Purpose: View your character's current statistics
- Options:
 - `display: true/false` (whether to show stats publicly or privately)
- Shows detailed information about:
 - Level
 - Zeni
 - Power Points
 - Character stats (Health, Ki, Strike Attack, Ki Attack, Defence, Speed)

3. `/level`

- Purpose: Check your current XP and level
- Options:
 - `display: true/false` (whether to show level publicly or privately)
- Generates an image showing your level progress

4. `/transform`

- Purpose: Change your character's transformation
- Usage: `/transform name:[Transformation Name]`
- Notes:
 - You can only transform to transformations you've unlocked
 - Transforming changes your character's stats
 - Some transformations may require specific roles or permissions

5. `/inventory`

- Purpose: View your collected items
- Options:
 - `type`: List or Individual view
 - `of`: Choose between "Special Attacks" or "Transformations"
- Allows you to browse your acquired attacks and transformations

Shop Commands

6. `/shop view`

- Purpose: Browse available items in the shop
- Options:
 - `type`: List or Individual view
 - `of`: Choose between "Special Attacks" or "Transformations"
- Allows you to explore purchasable items

7. `/shop buy`

- Purpose: Purchase a specific item from the shop
- Usage: `/shop buy item:[Item Name]`

Power Points Commands

8. `/get_power_points`

- Purpose: Manage and distribute your character's power points
- Options:
 - `display`: Choose whether to show publicly or privately
 - `refresh`: Option to reset point distribution
- Provides an interactive interface to allocate points to different stats

Utility Commands

9. `/ping`

- Purpose: Check the bot's responsiveness
- Returns "Pong!" to confirm the bot is working

10. `/echo`

- Purpose: Repeat a message
- Usage: `/echo content:[Your message]`

11. `/minecraft`

- Purpose: Retrieve the Minecraft server IP
- Returns the server IP address

12. `/help`

- Purpose: Get help and information about game mechanics
- Options: Choose from topics like:
 - General
 - XP
 - Power Points
 - Inventory

Battle Commands

13. `/battle PvP`

- Purpose: Initiate a Player vs Player battle
- Options:
 - With no user specified: Create an open battle challenge
 - With a user specified: Challenge a specific player to a battle

Server Setup (Admin Only)

14. `/server_setup`

- Purpose: Configure bot settings for your Discord server
- Options:
 - `cmd_channel`: Set the primary command channel
 - `wlc_channel`: Set the welcome channel
 - `battles_category`: Specify the category for battle channels
 - `logg_channel`: Set a logging channel
 - `trans_role`: Set a role for transformations
 - `allow_trans_gif`: Toggle transformation GIF permissions

Tips and Strategies

1. Regularly check your stats and level up to improve your character
2. Explore the shop to find new attacks and transformations
3. Participate in battles to gain XP and Zeni
4. Experiment with different transformations to find your preferred playstyle

5. Manage your power points wisely to optimize your character's strengths

Troubleshooting

- If you encounter any issues, contact your server administrators
- Make sure you have started the game using `/start_game` before using other game commands
- Check that you have the necessary permissions to use specific commands

Disclaimer

Game mechanics and features may be updated periodically. Always refer to the most recent version of this manual.

Enjoy your adventure with Android24!
